

What are Crosstabs?

The crosstabulation tables (aka crosstabs) present the results of each survey question broken down by different demographics, social characteristics, or responses to another survey question.

What are the parts of a crosstab table?

	Q23 FACED UNEMPLOYMENT		
	Total	YES	NO
Base	1719	293	1391
WHITE	78	73	79
White/Caucasian	78	73	79
VOTERS OF COLOR	21	27	19
African/African American/Black	11	13	11
Asian/Native Hawaiian/Pacific Islander	2	1	2
Hispanic/Latino	4	10	3
American Indian	1	0	1
Middle Eastern or North African	0	0	0
Multiracial	2	3	2
Other	1	1	1
DK/NA	1	0	1
DK/NA	1	0	1

} Survey question

} Number of participants who responded, overall and for each response option to the survey question

} Percent of participants who chose a specific response option to the survey question, broken down by demographics, social characteristics, or selected response to another survey question. **Bold** numbers indicate overall percentage for a broad category (e.g. Voters of Color), while non-bold numbers represent the percent of a specific sub-categories (E.g. Multiracial).

How do I make sense of the crosstab table results shown above?

Of the participants who had faced unemployment (Yes), 73% were white, 27% were voters of color, and 0% did not know or did not share their race/ethnicity.

More specifically, 13% of participants who had faced unemployment were African/African American/Black, 10% were Hispanic/Latino, 3% were multiracial, 1% was Asian/Native Hawaiian/Pacific Islander, and 1% identified as an “other” race/ethnicity.

Table 57: Q28. Some people say that factors in society and their community can impact on a person's health: these include things like a person's household income; level of education; access to well-paying jobs or jobs that are not physically straining; quality housing; adequate retirement funds; and the amount of family stress. In general, how big an impact do you think that these factors have on a person's health?
